ISO 24595:2024-01 (E)

Drinking water, wastewater and stormwater systems and services - Guidelines for the provision of alternative water service for essential facilities during a crisis

Contents

Page

Foreword ..... **v**

Introduction ..... **vi**

1 Scope **1**

2 Normative references **1**

3 Terms and definitions **1**

4 Principles for AWS provision for essential facilities during a crisis **2**
4.1 General 2
4.2 AWS approaches 3
4.2.1 General 3
4.2.2 Alternative source of water 3
4.2.3 Using the drinking water distribution network in a non-conventional manner 4
4.2.4 Not using the water distribution network 4

5 Understanding the operation context from an AWS perspective **4**
5.1 General 4
5.2 Determining the essential facilities 4

6 Planning for AWS provision to essential facilities **5**
6.1 General 5
6.2 Risk assessment 5
6.3 Pre-planning 5
6.3.1 Establishing disruption scenarios 5
6.3.2 Determining the water quantities that should be allocated to essential facilities 6
6.3.3 Pre-planning in accordance with the disruption scenario 6
6.4 Securing resources and planning for their mobilization 6

7 Implementation of AWS provision **8**
7.1 General 8
7.2 Non-conventional methods for water distribution network use 9
7.2.1 General 9
7.2.2 Construction and installation of water storage tanks 9
7.2.3 Distribution of water by erection of standpipes 9
7.2.4 Recharging of isolated water distribution network assets by water tankers 9
7.2.5 Lowering the pressure at which water is supplied 10
7.3 Methods not using the water distribution network 10
7.3.1 General 10
7.3.2 Temporary point of distribution solution methods 10
7.3.3 Via a fixed water resource 10
7.3.4 Via mobile water tankers or towed bowsers 11

8 Internal and external communications **11**
8.1 General 11
8.2 Preparing stakeholders in advance of a crisis involving AWS provision 11
8.2.1 Tailored messaging 11
8.2.2 Preparing essential facilities 11
8.2.3 Preparing key stakeholders 11
8.3 Alternative drinking and non-drinking water service information during a crisis 12
8.3.1 General 12
8.3.2 How to communicate 12
8.3.3 What to communicate 13

9 AWS provision in general and for users with special needs **14**
Annex A (informative) **Examples of assets for alternative water distribution** **15**
Annex B (informative) **Large capacity containerized water** **16**
Annex C (informative) **Determining water allocations** **23**
Annex D (informative) **The logistics of AWS provision** **25**
Bibliography **30**
