

ISO 24596:2024-02 (E)

Drinking water, wastewater and stormwater systems and services - Guidelines for the planning and implementation of infrastructure hardening for water and wastewater systems

Contents		Page
Foreword		iv
Introduction		v
1	Scope	1
2	Normative references	1
3	Terms and definitions	1
4	Protection principles	2
4.1	General	2
4.2	General objective for water infrastructure hardening	2
4.3	Main water and wastewater systems components	3
5	Risk assessment	3
5.1	General	3
5.2	Vulnerability investigation	4
5.2.1	General	4
5.2.2	Site security plan	4
5.2.3	All hazards risk assessment	5
5.3	Asset risk categorization	6
6	Protective measures for infrastructure	7
6.1	General protective measures	7
6.2	Security protection methods	7
6.2.1	General	7
6.2.2	Property protection by physical means	8
6.2.3	Monitoring and detection of intrusion	8
6.2.4	Property protection by human means	8
6.2.5	Security zones	9
6.2.6	Property protection by organizational means	9
6.3	Protection measure validation	9
6.4	Protection assessment	9
6.4.1	General	9
6.4.2	Ongoing review	9
6.4.3	Corrective measures	9
7	Documentation	9
8	Infrastructure hardening examples and configurations	10
8.1	General	10
8.2	Recommended configurations for the hardening of the different elements of a water system	10
Annex A (informative)	Example of recommended security measure configurations for water and wastewater infrastructure as practised in Israel	11

Annex B (informative) Example of the indicative asset security categorization and security treatment schedules as practised in Australia	14
Annex C (informative) Example of recommended security measure configurations for water and wastewater infrastructure as practised in Germany	24
Annex D (informative) Example of general protection elements for water and wastewater infrastructure	26
Bibliography	31
