Guidelines for the management of mobile toilets under epidemic situations

Contents

	Page
Foreword.....	iv
Introduction.....	v
1 Scope.....	1
2 Normative references.....	1
3 Terms and definitions.....	1
4 Mobile toilet components.....	2
4.1 General.....	2
4.2 Mobile toilets general components.....	3
4.2.1 General.....	3
4.2.2 Water supply and drainage.....	3
4.2.3 Electrical aspect.....	4
4.2.4 Ventilation and deodorisation.....	4
4.2.5 Suitable toilet flushing unit.....	4
4.3 Performance criteria.....	5
5 Management of mobile toilets.....	5
5.1 General.....	5
5.2 Environmental management.....	5
5.3 Risk management.....	6
6 Site selection, installation and disassembly.....	6
6.1 Site selection.....	6
6.1.1 General.....	6
6.1.2 Identification and packaging.....	7
6.1.3 Transportation and storage.....	7
6.2 Installation.....	7
6.2.1 General.....	7
6.2.2 Hoisting and placement.....	7
6.2.3 External connections.....	8
6.2.4 Disassembly and evacuation.....	8
7 Planning and maintenance.....	8
7.1 Operation procedures and instructions.....	8
7.1.1 Connection of the mobile toilet to a public wastewater system and the conveyance.....	8
7.1.2 Cleaning and disinfection of the mobile toilet.....	8
7.1.3 Transportation of waste.....	9
7.2 Maintenance instructions.....	9
7.3 Testing methods.....	10
8 Health and safety issues.....	10
8.1 Cleaning or maintenance personnel.....	10
8.2 Transportation personnel.....	10
8.3 Users.....	11
9 Rapid response mechanism.....	11
Annex A (informative) Reference range for toilet housing dimensions and materials.....	12
Bibliography.....	13
