Guidelines for the management of mobile toilets under epidemic situations

Contents		Page
Foreword.....		iv
Introduction.....		v
1 Scope.....		1
2 Normative references.....		1
3 Terms and definitions.....		1
4 Mobile toilet components.....		2
4.1 General.....		2
4.2 Mobile toilets general components.....		3
4.2.1 General.....		3
4.2.2 Water supply and drainage.....		3
4.2.3 Electrical aspect.....		4
4.2.4 Ventilation and deodorisation.....		4
4.2.5 Suitable toilet flushing unit.....		4
4.3 Performance criteria.....		5
5 Management of mobile toilets.....		5
5.1 General.....		5
5.2 Environmental management.....		5
5.3 Risk management.....		6
6 Site selection, installation and disassembly.....		6
6.1 Site selection.....		6
6.1.1 General.....		6
6.1.2 Identification and packaging.....		7
6.1.3 Transportation and storage.....		7
6.2 Installation.....		7
6.2.1 General.....		7
6.2.2 Hoisting and placement.....		7
6.2.3 External connections.....		8
6.2.4 Disassembly and evacuation.....		8
7 Planning and maintenance.....		8
7.1 Operation procedures and instructions.....		8
7.1.1 Connection of the mobile toilet to a public wastewater system and the conveyance.....		8
7.1.2 Cleaning and disinfection of the mobile toilet.....		8
7.1.3 Transportation of waste.....		9
7.2 Maintenance instructions.....		9
7.3 Testing methods.....		10
8 Health and safety issues.....		10
8.1 Cleaning or maintenance personnel.....		10
8.2 Transportation personnel.....		10
8.3 Users.....		11
9 Rapid response mechanism.....		11
Annex A (informative) Reference range for toilet housing dimensions and materials.....		12
Bibliography.....		13
