Guidelines for the management of mobile toilets under epidemic situations

Contents		Page
Foreword		iv
Introduction		v
1	Scope	1
2	Normative references	1
3	Terms and definitions	1
4	Mobile toilet components	2
4.1	General	2
4.2	Mobile toilets general components	3
4.2.1	General	3
4.2.2	Water supply and drainage	3
4.2.3	Electrical aspect	4
4.2.4	Ventilation and deodorisation	4
4.2.5	Suitable toilet flushing unit	4
4.3	Performance criteria	5
5	Management of mobile toilets	5
5.1	General	5
5.2	Environmental management	5
5.3	Risk management	6
6	Site selection, installation and disassembly	6
6.1	Site selection	6
6.1.1	General	6
6.1.2	Identification and packaging	7
6.1.3	Transportation and storage	7
6.2	Installation	7
6.2.1	General	7
6.2.2	Hoisting and placement	7
6.2.3	External connections	8
6.2.4	Disassembly and evacuation	8
7	Planning and maintenance	8
7.1	Operation procedures and instructions	8
7.1.1	Connection of the mobile toilet to a public wastewater system and the conveyance	8
7.1.2	Cleaning and disinfection of the mobile toilet	8
7.1.3	Transportation of waste	9
7.2	Maintenance instructions	9
7.3	Testing methods	10
8	Health and safety issues	10
8.1	Cleaning or maintenance personnel	10
8.2	Transportation personnel	10
8.3	Users	11
9	Rapid response mechanism	11
Annex A (informative) Reference range for toilet housing dimensions and materials		12
