## Water reuse in urban areas - Guidelines for centralized water reuse system - Part 2: Management of a centralized water reuse system

---

### Contents

Page

**Foreword**..... iv

**Introduction**..... v

**1 Scope**..... 1

**2 Normative references**..... 1

**3 Terms and definitions**..... 1

**4 Overview of management issues of a centralized water reuse system**..... 2

    4.1 General..... 2

    4.2 Water demand..... 3

    4.3 System components..... 3

    4.4 Possible models of the reclaimed water system and end-use needs..... 3

**5 Principles and methodology of reclaimed water management**..... 4

    5.1 Principles..... 4

    5.2 Risk management..... 4

**6 Management of source water**..... 4

**7 Management of reclaimed water treatment systems**..... 4

**8 Management of reclaimed water storage systems**..... 5

**9 Management of reclaimed water distribution systems**..... 5

    9.1 General..... 5

    9.2 Delivery pressure and flow rate of reclaimed water..... 6

    9.3 Water quality in distribution systems..... 6

    9.4 Colour-coding, water signs and labels..... 6

    9.5 Backflow and cross-connection control..... 6

    9.6 System leakage and corrosion control..... 7

    9.7 Service connections..... 7

**10 Water quality monitoring**..... 7

    10.1 General..... 7

    10.2 Baseline monitoring..... 7

    10.3 Validation monitoring..... 8

    10.4 Operational monitoring..... 8

    10.5 Verification monitoring..... 8

**11 Management of incidents and emergencies**..... 9

**12 Supporting recommendations**..... 9

**13 Review**..... 9

**Bibliography**..... 10
