ISO 27916:2026-06 (E)

Carbon dioxide capture, transportation and storage - Carbon dioxide storage using enhanced oil recovery (CO2-EOR)

Contents

Page

Foreword ..... **v**

Introduction ..... **vi**

1 Scope **1**

2 Normative references **1**

3 Terms and definitions **1**

4 Documentation **4**
4.1 Purpose 4
4.2 Use of existing data 4
4.3 Initial documentation 4
4.4 Periodic documentation 4

5 EOR complex description, qualification and construction **5**
5.1 General 5
5.2 Geological characterization of the EOR complex 5
5.3 Description of the facilities within the CO_2-EOR project 6
5.4 Existing wells within the EOR complex 6
5.5 Operations history of the project reservoir 6

6 Containment assurance and monitoring within the EOR complex **7**
6.1 Containment assurance 7
6.1.1 Initial containment assurance 7
6.1.2 Operational containment assurance 7
6.2 Monitoring program, methods and implementation 7
6.2.1 Monitoring of potential leakage pathways 7
6.2.2 Monitoring methods 8
6.2.3 Monitoring program implementation 8

7 Well construction **8**
7.1 New well construction 8
7.2 Well intervention 8
7.3 Abandonment of wells 9
7.3.1 General 9
7.3.2 Evaluation of existing abandoned wells 9
7.3.3 Abandonment 9

8 Quantification and verification **9**
8.1 General 9
8.2 Quantification principles 10
8.3 Quantification of input [m_{input}] 12
8.4 Quantification of loss 13
8.4.1 Quantification of operational loss [$m_{loss\ operations}$] 13
8.4.2 Loss from facilities 13
8.4.3 Venting and flaring from operations 13
8.4.4 Entrained CO_2 in products 13
8.4.5 Transfer of CO_2 13
8.4.6 Leakage from EOR complex 14
8.5 Allocation ratio for anthropogenic CO_2 14
8.6 De minimis losses 14
8.7 Avoidance of double-counting 14
8.8 Verification 14

8.8.1 General 14
8.8.2 Type of verification 14
8.8.3 Verification approach 15
8.8.4 Verification opinion 15
8.8.5 Quantification and verification records 15
9 Recordkeeping and missing data 16
9.1 Record retention 16
9.2 Missing data procedures 16
10 Project termination 16
10.1 General 16
10.2 Periodic assurance of containment 16
10.3 Termination plan 16
10.4 Requisites for termination 16
10.5 CO_2-EOR project termination 17
10.6 Post termination 17
Annex A (informative) **Example quantification calculation 18**
Annex B (informative) **Unit conversion 27**
