Soil quality_ - Sampling_ - Part_2: Guidance on sampling techniques

Contents	Page
Foreword	iv
Introduction.....	v
1 Scope.....	1
2 Normative references.....	1
3 Terms and definitions	2
4 Principle	2
4.1 Sampling of soil.....	2
4.2 Sampling of water	3
4.3 Sampling of soil gas	3
5 Choice of sampling technique	3
5.1 Preliminary information	3
5.2 Type of sample	4
5.3 Selection of sampling technique	5
5.4 Cross-contamination	6
6 Safety and environmental protection in the investigation.....	6
6.1 Personal protection.....	7
6.2 Protection of buildings and installations.....	7
6.3 Environmental protection.....	7
6.4 Backfilling	8
7 Techniques	8
7.1 General	8
7.2 Cross-contamination	10
7.3 Undisturbed samples.....	11
8 Storage of samples	11
8.1 General	11
8.2 Sample containers	11
8.3 Labelling.....	13
8.4 Sample storage.....	13
9 Sampling report.....	14
Annex A (informative) Manually and power-operated sampling tools	15
Bibliography.....	23
