## Soil quality\_ - Sampling\_ - Part\_2: Guidance on sampling techniques

---

<b>Contents</b>		<b>Page</b>
Foreword .....		iv
Introduction.....		v
1 Scope.....		1
2 Normative references.....		1
3 Terms and definitions .....		2
4 Principle .....		2
4.1 Sampling of soil.....		2
4.2 Sampling of water .....		3
4.3 Sampling of soil gas .....		3
5 Choice of sampling technique .....		3
5.1 Preliminary information .....		3
5.2 Type of sample .....		4
5.3 Selection of sampling technique .....		5
5.4 Cross-contamination .....		6
6 Safety and environmental protection in the investigation.....		6
6.1 Personal protection.....		7
6.2 Protection of buildings and installations.....		7
6.3 Environmental protection.....		7
6.4 Backfilling .....		8
7 Techniques .....		8
7.1 General .....		8
7.2 Cross-contamination .....		10
7.3 Undisturbed samples.....		11
8 Storage of samples .....		11
8.1 General .....		11
8.2 Sample containers .....		11
8.3 Labelling.....		13
8.4 Sample storage.....		13
9 Sampling report.....		14
Annex A (informative) Manually and power-operated sampling tools .....		15
Bibliography.....		23
