Soil quality_ - Sampling_ - Part_2: Guidance on sampling techniques

Contents		Page
Foreword		iv
Introduction.....		v
1 Scope.....		1
2 Normative references.....		1
3 Terms and definitions		2
4 Principle		2
4.1 Sampling of soil.....		2
4.2 Sampling of water		3
4.3 Sampling of soil gas		3
5 Choice of sampling technique		3
5.1 Preliminary information		3
5.2 Type of sample		4
5.3 Selection of sampling technique		5
5.4 Cross-contamination		6
6 Safety and environmental protection in the investigation.....		6
6.1 Personal protection.....		7
6.2 Protection of buildings and installations.....		7
6.3 Environmental protection.....		7
6.4 Backfilling		8
7 Techniques		8
7.1 General		8
7.2 Cross-contamination		10
7.3 Undisturbed samples.....		11
8 Storage of samples		11
8.1 General		11
8.2 Sample containers		11
8.3 Labelling.....		13
8.4 Sample storage.....		13
9 Sampling report.....		14
Annex A (informative) Manually and power-operated sampling tools		15
Bibliography.....		23
