## Soil quality - Pretreatment of samples for determination of organic contaminants

---

| <b>Contents</b>       |   | <b>Page</b> |
|-----------------------|---|-------------|
| Foreword .....        |   | iv          |
| Introduction .....    |   | v           |
| 1                     | Scope .....   | 1           |
| 2                     | Normative references .....  | 1           |
| 3                     | Terms and definitions .....   | 1           |
| 4                     | Principle .....   | 2           |
| 4.1                   | Sampling .....  | 2           |
| 4.2                   | Volatile compounds .....  | 2           |
| 4.3                   | Moderately volatile compounds .....   | 2           |
| 5                     | Reagents .....  | 3           |
| 6                     | Apparatus .....   | 3           |
| 7                     | Preservation and storage .....  | 4           |
| 8                     | Procedure .....   | 4           |
| 8.1                   | General .....   | 4           |
| 8.2                   | Volatile compounds (boiling point < 300 °°°°C) .....  | 5           |
| 8.3                   | Moderately volatile organic compounds (boiling point > 300 °°°°C) -- Grinding necessary ..                        | 5           |
| 8.4                   | Moderately volatile organic compounds (boiling point > 300 °°°°C) -- Grinding not possible or not necessary ..... | 7           |
| 8.5                   | Blank measurements .....  | 8           |
| 9                     | Test report .....   | 8           |
| Annex A (informative) | Information concerning vapour pressure, boiling and melting points of volatile organic compounds .....            | 9           |
| Annex B (informative) | Validation .....  | 12          |
| Bibliography .....    |   | 14          |
