Soil quality - Characterization of soil with respect to human exposure

Contents

Page

Foreword iv

Introduction v

1 Scope 1

2 Normative references 1

3 Terms and definitions 1

4 Characterization of soil and sites with respect to human exposure 4
4.1 Introduction 4
4.2 Exposure routes 5

5 Characterization of soil and sites 8
5.1 Relevant soil processes and parameters 8
5.2 Sampling 10
5.3 Site characterization 10
5.4 Characterization of soil 11
5.5 Characterization of contamination 15

6 Data handling, evaluation and quality 18

Annex A (informative) Exposure routes depending on actual site use 20

Annex B (informative) Industries and related polluting substances 21

Bibliography 22
