Water quality - Sampling - Part 19: Guidance on sampling in marine sediments

Contents		Page
Foreword		iv
Introduction		vi
1	Scope	1
2	Normative references	1
3	Terms and definitions	1
4	Strategies and objectives for sediment sampling	2
4.1	Sampling programme and plan	2
4.2	Types of surveys	2
4.3	Sampling strategy and/or design	4
4.4	Reference points	5
5	Sampling procedure	6
5.1	Vessel requirements during sampling	6
5.2	Defining the position of sampling points	6
5.3	Choice of sampling equipment	6
5.4	Handling of sediment samples	7
5.5	Sample identification and records	8
6	Packaging and storage of sediment samples	8
7	Safety precautions	9
8	Quality assurance	9
8.1	General	9
8.2	Quality assurance protocols	9
Annex A (informative) Example of a form for reporting -- Sampling marine sediments		10
Annex B (informative) Description of sediment sampling devices		12
