## Water quality - Determination of the elimination and biodegradability of organic compounds in an aqueous medium - Activated sludge simulation test

---

<b>Contents</b>		<b>Page</b>
Foreword .....		iv
1	Scope .....	1
2	Normative references .....	1
3	Terms and definitions .....	2
4	Principle .....	3
5	Test environment .....	4
6	Reagents .....	4
7	Apparatus .....	7
8	Procedure .....	8
8.1	General .....	8
8.2	Preparation of the inoculum .....	8
8.3	Performance of the test .....	8
9	Calculation and expression of results .....	11
9.1	Calculation of the degree of elimination .....	11
9.2	Expression of results .....	12
9.3	Indication of biodegradation .....	12
9.4	Biodegradation of the organic medium .....	12
10	Validity of the test .....	12
11	Test report .....	13
Annex A (informative) Modification of the activated sludge simulation test for nitrifying-denitrifying sewage treatment plants .....		14
Annex B (informative) Coupling of the test units (optional) .....		18
Annex C (informative) Test systems .....		19
Annex D (informative) Effects of sludge retention time on effluent concentration .....		22
Annex E (informative) Example of an elimination/degradation curve .....		25
Bibliography .....		26
