

DIN EN 12920:2006-06 (E)

Characterization of waste - Methodology for the determination of the leaching behaviour of waste under specified conditions

Contents		Page
Foreword		3
Introduction		4
1	Scope	5
2	Terms and definitions	5
3	Description of the steps in the methodology	6
3.1	Outline	6
3.2	Step 1: Definition of the problem and the solution sought	6
3.3	Step 2: Description of the scenario	7
3.4	Step 3: Description of the waste	7
3.5	Step 4: Determination of the influence of parameters on leaching behaviour within the specified time frame	8
3.6	Step 5: Modelling of leaching behaviour within the specified time frame	9
3.7	Step 6: Behavioural Model Validation	9
3.7.1	General	9
3.7.2	Verification of the consistency between parameter specific tests and simulation tests	9
3.7.3	Verification of predicted behaviour in the field	9
3.7.4	Identification of analogy with geological natural and/or ancient materials	9
3.8	Step 7: Conclusion	10
4	Study report	10
Annex A (informative) Principle of the methodology		11
Bibliography		12
