

DIN EN 14701-2:2006-09 (E)

Characterization of sludges - Filtration properties - Part 2: Determination of the specific resistance to filtration

| Contents | | Page |
|---|---|-------------|
| Foreword | | 3 |
| Introduction | | 4 |
| 1 | Scope | 5 |
| 2 | Normative references | 5 |
| 3 | Terms and definitions | 5 |
| 4 | Principle | 5 |
| 5 | Apparatus | 5 |
| 6 | Procedure | 6 |
| 6.1 | Reduced pressure (Figure A.1) | 6 |
| 6.2 | Under pressure (Figure A.2) | 7 |
| 6.3 | Under pressure with a piston (Figure A.3) | 7 |
| 7 | Expression of results | 8 |
| 8 | Precision | 8 |
| 9 | Test report | 8 |
| Annex A (informative) Filtration apparatus | | 10 |
| Annex B (informative) Table of viscosity | | 12 |
| Annex C (informative) Result of validation trials | | 13 |
| Bibliography | | 18 |
