## Soil quality - Sampling of soil invertebrates - Part 2: Sampling and extraction of micro-arthropods (Collembola and Acarina)

---

<b>Contents</b>		<b>Page</b>
Foreword .....		iv
Introduction .....		v
1	Scope .....	1
2	Terms and definitions .....	1
3	Principle .....	1
4	Test materials .....	2
4.1	Biological material .....	2
4.2	Reagents .....	2
5	Apparatus .....	3
6	Procedure .....	4
6.1	Collecting the soil samples .....	4
6.2	Extracting Collembola and Acarina from soil samples .....	4
6.3	Sorting, preserving and identifying Collembola and Acarina .....	5
7	Assessment of results .....	6
8	Study report .....	6
Annex A (informative) Species determination in collembolans and mites .....		7
Annex B (informative) Alternative methods for sampling of micro-arthropods .....		9
Bibliography .....		10
