

ISO 22892:2006-02 (E)

Soil quality - Guidelines for the identification of target compounds by gas chromatography and mass spectrometry

Contents		Page
Foreword		iv
Introduction		v
1	Scope	1
2	Principle	1
3	Terms and definitions	1
4	Apparatus	2
5	Procedure	3
5.1	Retention times	3
5.2	Mass spectra, selection of diagnostic ions	3
6	Qualification	4
6.1	GC-MS procedure	4
6.2	Additional information	5
6.3	Reporting the presence of target compounds	7
6.3.1	Identification	7
6.3.2	Indication	8
6.3.3	Absence of the target compound (< detection limit)	8
7	Test report	8
Annex A (informative) Diagnostic ions to be used for identification using GC-MS		9
Annex B (informative) Examples		12
Annex C (informative) Examples of Spectra		18
Bibliography		20
