

ISO 7146-2:2008-10 (E)

Plain bearings - Appearance and characterization of damage to metallic hydrodynamic bearings - Part 2: Cavitation erosion and its countermeasures

| Contents | | Page |
|--------------------|--|-------------|
| Foreword | | iv |
| Introduction | | v |
| 1 | Scope | 1 |
| 2 | Normative references | 1 |
| 3 | Terms and definitions | 1 |
| 4 | Cavitation erosion | 2 |
| 4.1 | Mechanism of cavitation erosion | 2 |
| 4.2 | Classification of cavitation erosion | 4 |
| 4.3 | General countermeasures against cavitation erosion | 7 |
| 5 | Five types of cavitation erosion | 8 |
| 5.1 | General | 8 |
| 5.2 | Flow cavitation erosion | 8 |
| 5.3 | Impact cavitation erosion | 11 |
| 5.4 | Suction cavitation erosion | 12 |
| 5.5 | Discharge cavitation erosion | 14 |
| 5.6 | Miscellaneous cavitation erosion (see Figures 17 to 20) | 15 |
