

DIN ISO 4378-2:2013-12 (E)

Plain bearings - Terms, definitions, classification and symbols - Part 2: Friction and wear (ISO 4378-2:2009)

Contents	Page
National foreword	3
Introduction	4
Introduction	5
Scope	6
1 General terms	7
2 Types and characteristics of external friction and classification	9
2.1 Classification according to the presence of relative motion	9
2.2 Classification according to the mode of relative motion	10
2.3 Classification according to the presence of lubricant	12
3 Types and characteristics of wear process and classification	13
3.1 Mechanical wear	13
3.2 Mechano-chemical wear	15
3.3 Wear under the action of electric current	15
3.4 Thermal wear	1
4 Phenomena and processes in friction and wear	16
5 Vibration and vibration-related terms regarding a rotating shaft supported by plain bearings	19
Alphabetical index	21
French alphabetical index (Index alphabétique)	22
German alphabetical index (Alphabetisches Verzeichnis)	23
