

ISO 14287:2018 (E)

Plain bearings — Pad materials for tilting pad bearings

Contents

	Foreword
	Introduction
1	Scope
2	Normative references
3	Terms and definitions
4	Requirements
4.1	General
4.2	Metallic materials
4.2.1	Typical materials
4.2.2	Tin-based white metals
4.2.3	Aluminium bearing alloys
4.2.4	Lead-bronze bearing alloys
4.3	Polymer materials
4.4	Back metal materials
4.5	Pivot materials
Annex A	(informative) Guidance on properties and selection of materials
A.1	Additional information on metal materials
A.1.1	White metals
A.1.2	Aluminium alloys
A.1.3	Leaded-bronze alloys
A.2	Additional information on polymer materials
A.3	Operation range
