

ISO 22872:2024-11 (E)

Rolling bearings - Geometrical product specifications (GPS) - Vocabulary and representation of symbols

| Contents | | Page |
|------------------------------|---|-------------|
| Foreword | | iv |
| Introduction | | v |
| 1 | Scope | 1 |
| 2 | Normative references | 1 |
| 3 | Terms and definitions | 1 |
| 3.1 | Terms related to dimensional specifications | 1 |
| 3.1.1 | Nominal boundary dimensions | 1 |
| 3.1.2 | Bore diameter | 3 |
| 3.1.3 | Outside diameter | 4 |
| 3.1.4 | Widths of inner and outer rings | 5 |
| 3.1.5 | Washer thickness | 6 |
| 3.1.6 | Assembled bearing section height | 7 |
| 3.1.7 | Assembled bearing height or width | 7 |
| 3.2 | Terms related to geometrical specifications | 8 |
| 3.2.1 | Rings | 8 |
| 3.2.2 | Assembled radial bearings | 8 |
| 3.3 | Terms related to geometrical product specifications | 9 |
| 4 | Symbols | 10 |
| 4.1 | General | 10 |
| 4.2 | Symbols for physical quantities | 10 |
| 4.3 | Additional symbols | 11 |
| 5 | Graphic description | 12 |
| Annex A (informative) | Representation of geometrical product specifications | 15 |
| Bibliography | | 25 |
