## Gas cylinders - Safe handling

## Contents

Page

Foreword ..... iv

Introduction ..... v

1 Scope ..... 1

2 Normative references ..... 1

3 Terms and definitions ..... 1

4 Content identification ..... 2

5 Safe handling requirements ..... 2
5.1 General ..... 2
5.2 User responsibilities ..... 3

6 Use of gas cylinders ..... 6
6.1 General ..... 6
6.2 Labels and safety data sheets (SDS) ..... 6
6.3 Connecting cylinders and withdrawing content ..... 6
6.4 Cylinder valve ..... 6
6.5 Non-return valves ..... 7
6.6 Flame arrestor and shut-off device ..... 7
6.7 Manifolds ..... 7
6.8 Gas tightness of connections ..... 7
6.9 Residual cylinder pressure ..... 7
6.10 Removing pressure regulator ..... 7
6.11 Changing equipment service ..... 7
6.12 Ventilation ..... 8
6.13 Securing cylinders ..... 8
6.14 Precautions for oxidizing gases ..... 8
6.15 Oxygen concentration in work areas ..... 8
6.16 Asphyxiation by inert gases ..... 8
6.17 Hazards due to corrosive or toxic gases ..... 8
6.18 Emergency precaution and required equipment ..... 8

7 Storage ..... 9
7.1 General ..... 9
7.2 Hazard class ..... 9
7.3 Storage (all hazard classes) ..... 9
7.4 Storage by hazard class ..... 10

Bibliography ..... 13
