## Gas cylinders - Safe handling

---

<b>Contents</b>		<b>Page</b>
Foreword .....		iv
Introduction .....		v
1	Scope .....	1
2	Normative references .....	1
3	Terms and definitions .....	1
4	Content identification .....	2
5	Safe handling requirements .....	2
5.1	General .....	2
5.2	User responsibilities .....	3
6	Use of gas cylinders .....	6
6.1	General .....	6
6.2	Labels and safety data sheets (SDS) .....	6
6.3	Connecting cylinders and withdrawing content .....	6
6.4	Cylinder valve .....	6
6.5	Non-return valves .....	7
6.6	Flame arrestor and shut-off device .....	7
6.7	Manifolds .....	7
6.8	Gas tightness of connections .....	7
6.9	Residual cylinder pressure .....	7
6.10	Removing pressure regulator .....	7
6.11	Changing equipment service .....	7
6.12	Ventilation .....	8
6.13	Securing cylinders .....	8
6.14	Precautions for oxidizing gases .....	8
6.15	Oxygen concentration in work areas .....	8
6.16	Asphyxiation by inert gases .....	8
6.17	Hazards due to corrosive or toxic gases .....	8
6.18	Emergency precaution and required equipment .....	8
7	Storage .....	9
7.1	General .....	9
7.2	Hazard class .....	9
7.3	Storage (all hazard classes) .....	9
7.4	Storage by hazard class .....	10
Bibliography .....		13
