|---|--|-------------|
| Foreword .....  |  | 3           |
| Introduction .....  |  | 4           |
| 1 Scope .....   |  | 6           |
| 2 Normative references .....  |  | 6           |
| 3 Terms, definitions and numerical notations .....                                |  | 6           |
| 4 Data presentation .....   |  | 7           |
| 5 Gas cylinder identification structure .....                                     |  | 10          |
| 6 Gas cylinder identification data schemes .....                                  |  | 11          |
| 7 Air interface specifications .....  |  | 21          |
| 8 Transponder memory addressing .....   |  | 22          |
| Annex A (normative) Technical solution .....                                      |  | 23          |
| Annex B (informative) List of codes for registration bodies .....                 |  | 24          |
| Annex C (informative) List of codes for gas cylinder manufacturers .....          |  | 25          |
| Annex D (informative) Gas quantity units code .....                               |  | 50          |
| Annex E (informative) Host to interrogator to MODBUS communication protocol ..... |  | 51          |
