European foreword 4

Foreword 5

Introduction 6

1 Scope 7

2 Normative references 7

3 Terms and definitions 8

4 Requirements 9
4.1 Materials 9
4.1.1 General 9
4.1.2 Metallic materials 10
4.1.3 Internal non-metallic materials 10
4.2 Design 10
4.2.1 General 10
4.2.2 Body/bonnet wall thickness 10
4.2.3 Body and bonnet extension 10
4.2.4 Stem 15
4.2.5 Seats and seating surfaces 15
4.2.6 Provision for internal pressure relief 15
4.2.7 Operating means 15
4.2.8 Electric continuity and fire-safe design 16

5 Testing 16
5.1 Production testing with low-temperature test 16

6 Sampling 16
6.1 Lot requirements 16
6.2 Sample size 17
6.3 Lot acceptance 17

7 Marking, labelling and packaging 17

Annex A (normative) Test procedure for production testing of valves at low temperature 19

A.1 General 19
A.2 Test procedures 19
A.2.1 Testing flow chart 19
A.2.2 Ambient temperature test 20
A.2.3 Low-temperature test 21
A.2.4 Warm-up procedure and post-test examination 22
A.3 Test temperatures 22
A.3.1 Ambient temperature 22
A.3.2 Low temperature 22
A.4 Test pressures 22
A.4.1 Low-pressure seat test 22
A.4.2 Incremental high-pressure seat test 22

A.5 Duration of seat test 22
A.6 Direction of seat test 23
A.7 Allowable seat leakage rates 23
A.8 Test set-up for low-temperature tests 23
A.8.1 Test equipment 23
A.8.2 Cooling of the valve 24
A.8.3 Test gas 25
A.8.4 Instruments 25
A.9 Flowmeters, flowmeter calibration, seat leak and correction factors 25
A.9.1 Flowmeter 25
A.9.2 Flowmeter calibration 25
A.9.3 Temperature correction 25
A.9.4 Pressure correction 26

Annex B (informative) Low-temperature test record 27
