

ISO/TR 12391-3:2002-12 (E)

Gas cylinders - Refillable seamless steel; Performance tests - Part 3: Fracture performance tests; Cyclical burst tests

Contents		Page
Foreword		iv
Introduction		v
1	Scope	1
2	References	1
3	Symbols	2
4	Background information	2
5	Experimental test programme	4
5.1	Types of cylinder tested	4
5.2	Material properties tests	5
5.3	Description of the flawed-cylinder cyclical burst test	6
6	Flawed-cylinder cyclical burst test results	8
6.1	Flawed-cylinder burst test procedure	8
6.2	Flawed-cylinder cyclical burst test results for group B materials	9
6.3	Flawed-cylinder cyclical burst test results for group C materials	10
6.4	Flawed-cylinder cyclical burst test results for group D materials	11
7	Discussion	13
7.1	Background	13
7.2	ISO 9809-2 flawed-cylinder cyclical burst test procedures and acceptance criteria	13
7.3	Comparison of the flawed-cylinder cyclical burst test with the flawed-cylinder burst test with monotonic pressurization to evaluate fracture performance	14
8	Summary and conclusions	15
