Foreword iv

Introduction v

1 Scope 1

2 Normative references 1

3 Terms and definitions 2

4 Symbols 3

5 Materials 3

6 Design 4
6.1 General requirements 4
6.2 Calculation of cylindrical shell thickness 5
6.3 Design of ends concave to pressure 5
6.4 Ends of other shapes 9
6.5 Minimum wall thickness 9
6.6 Design of openings 9
6.7 Valve protection 9

7 Construction and workmanship 10
7.1 Welding qualification 10
7.2 Plates and pressed parts 10
7.3 Welded joints 10
7.4 Tolerances 10
7.5 Non-pressure-containing attachments 11
7.6 Valve protection 11
7.7 Closure of openings 11
7.8 Heat treatment 11

8 Testing 12
8.1 Mechanical testing 12
8.2 Burst test under hydraulic pressure 17
8.3 Pressure test 18
8.4 Radiographic and macro examination 18
8.5 Visual examination of the surface of the weld 20
8.6 Pressure cycling (fatigue) test 20

9 Acceptance procedure 21
9.1 General 21
9.2 Batch testing 21
9.3 Failure to meet batch test requirements 23

10 Technical requirements for type approval 23

11 Marking 24

12 Certification 24

Annex A (normative) Manufacturer's marking 25

Annex B (informative) Examples of type approval and production test certificates 26
