## Rubber - Tolerances for products - Part 2: Geometrical tolerances

---

<b>Contents</b>		<b>Page</b>
Foreword .....		iv
1	Scope .....	1
2	Normative references .....	1
3	Classes of tolerances .....	1
4	Measurement of dimensions .....	2
4.1	General .....	2
4.2	Test instruments .....	2
5	Flatness tolerance .....	2
6	Parallelism tolerance .....	3
6.1	Sandwich structure (rubber between two metal plates) .....	3
6.2	Extruded-product cut section (e.g. lathe-cut rings) .....	4
7	Perpendicularity tolerance .....	5
8	Coaxiality tolerance .....	5
8.1	Moulded products .....	5
8.2	Mandrel-supported extruded products .....	7
8.3	Rotating parts .....	7
9	Positional tolerances .....	8
