Foreword iv

Introduction v

1 Scope 1

2 Normative references 1

3 Terms and definitions 1

4 Symbols 4

5 Classification 7

6 Requirements 8

7 Design rules 17

8 Manufacturing tolerances 25

9 Marking and labelling 32

10 Test methods 33

11 Quality assurance 33

Annex A (normative) Tensile stress in reinforcing steel plate 34

Annex B (normative) Buckling stability 36

Annex C (normative) Allowable tensile stress in isolator 37

Annex D (informative) Dependency of ultimate properties on shape factor 38

Annex E (informative) Minimum recommended tensile properties for rubber materials 41

Annex F (informative) Compressive stiffness 42

Annex G (informative) Determination of shear properties of elastomeric isolators 46

Annex H (informative) Determination of local shear strain due to compression 51

Annex I (informative) Maximum compressive stress 54
