Elastomeric seismic-protection isolators - Part 2: Applications for bridges - Specifications

Contents		Page
Foreword		iv
Introduction		v
1	Scope	1
2	Normative references	1
3	Terms and definitions	1
4	Symbols	4
5	Classification	7
6	Requirements	8
7	Design rules	17
8	Manufacturing tolerances	25
9	Marking and labelling	32
10	Test methods	33
11	Quality assurance	33
Annex A (normative) Tensile stress in reinforcing steel plate		34
Annex B (normative) Buckling stability		36
Annex C (normative) Allowable tensile stress in isolator		37
Annex D (informative) Dependency of ultimate properties on shape factor		38
Annex E (informative) Minimum recommended tensile properties for rubber materials		41
Annex F (informative) Compressive stiffness		42
Annex G (informative) Determination of shear properties of elastomeric isolators		46
Annex H (informative) Determination of local shear strain due to compression		51
Annex I (informative) Maximum compressive stress		54
Bibliography		55
