DIN EN ISO 4671:2012-02 (E)

Rubber and plastics hoses and hose assemblies - Methods of measurement of the dimensions of hoses and the lengths of hose assemblies (ISO 4671:2007 + Amd. 1:2011)

Contents

Page

! 1 Scope 4

2 Normative references 4

3 Test piece conditioning and temperature of measurement 4

4 Measurement of inside diameter 4

5 Measurement of outside diameter 6

6 Measurement of diameter over reinforcement 7

7 Measurement of wall thickness 7

8 Measurement of concentricity 8

9 Measurement of lining and cover thickness 9

10 Measurement of length and identification of measurement points 10

11 Verification of through-bore of hose assemblies 12

12 Test report 13
