

DIN EN ISO 28017:2018-06 (E)

Rubber hoses and hose assemblies, wire or textile reinforced, for dredging applications - Specification (ISO 28017:2018)

Contents		Page
European foreword		3
Foreword		4
1	Scope	5
2	Normative references	5
3	Terms and definitions	5
4	Classification	6
4.1	Classes	6
4.2	Grades	6
5	Materials and construction	7
5.1	Hoses	7
5.2	Flotation material	7
5.3	End fittings and end connections	8
6	Dimension and tolerances	8
6.1	Diameters	8
6.2	Hose assembly length	9
7	Physical properties	9
7.1	Rubber compounds	9
7.1.1	Abrasion resistance of lining	9
7.1.2	Tear strength of lining	9
7.1.3	Rebound resilience of lining	9
7.1.4	Ozone resistance of cover	9
7.2	Performance requirements	10
7.2.1	Hydrostatic requirements	10
7.2.2	Change in length	10
7.2.3	Bending test	11
7.2.4	Leakage of hose assemblies (proof pressure test)	11
7.2.5	Minimum reserve buoyancy	11
7.2.6	Flotation material recovery	12
7.2.7	Adhesion between components	12
7.2.8	Adhesion between end fitting and lining	12
7.2.9	Minimum tensile strength of empty hose assemblies	13
7.2.10	Vacuum resistance	13
7.2.11	Dimensions of flange and other connections	13
7.2.12	Visual examination	13
7.3	Frequency of testing	13
8	Test certificate or report	14
9	Marking	14
10	Recommendations for packaging and storage	14
Annex A (normative) Type tests and routine tests		15
Annex B (normative) Measurement of adhesion between end fitting and lining		16
Annex C (normative) Hose assembly tensile-strength test		19
