DIN EN 17308:2025-01 (E)

Materials produced from end of life tyres - Steel wire - Determination of the non-metallic content

Contents

Page

European foreword 4

1 Scope 5

2 Normative references 5

3 Terms and definitions 5

4 Testing programme 7

5 Determination of non-metallic content in steel wire 7
5.1 General 7
5.2 Preparation of sampling plan and laboratory sample 7
5.2.1 Principle of correct sampling 7
5.2.2 Sampling plan 8
5.2.3 Definition of lot size 8
5.2.4 Sampling point and apparatus 8
5.2.5 Size of a sample increment 8
5.2.6 Number of sample increments 9
5.2.7 Metrological characteristics of sampling 9
5.2.8 Visual assessment 9
5.3 Storage and transport of laboratory sample(s) 9
5.4 Laboratory sample(s) and test portion(s) 9
5.4.1 General principle 9
5.4.2 Laboratory sample 9

6 Determination by pyrolysis method 9
6.1 Principle 9
6.2 Apparatus 9
6.2.1 Analytical scales 9
6.2.2 Pyrolysis set-up 10
6.2.3 Steel wire cleaning apparatus 10
6.2.4 Magnets 11
6.2.5 Tray 11
6.3 Sampling 11
6.4 Determination 11
6.5 Expression of results 12

7 Determination by hydrostatic method 13
7.1 Principle 13
7.2 Pretreatment 13
7.3 Apparatus 13
7.3.1 Analytical scale 13
7.3.2 Hydrostatic apparatus 13
7.3.3 Reagents 15
7.4 Procedure 15
7.5 Calculation 15
7.6 Metrological characteristics 16

8 Report 16

Annex A (informative) Example of a test report sheet 17

Annex B (informative) Schematic diagram of a pyrolyzer 18

Annex C (informative) Explanation of the formula used in the hydrostatic method 19
