

ISO/TR 7620:2005-05 (E)

Rubber materials - Chemical resistance

Contents		Page
Foreword		iv
Introduction		v
1	Scope	1
2	Types of chemical and physical change	1
3	Rubber polymers	2
4	Chemicals	3
5	Effect of service conditions	3
6	Criteria applied for the ranking of chemical resistance	3
7	Chemical resistance of rubber materials	4
8	Methods for the evaluation of chemical resistance	5
9	Chemical resistance	8
Annex A (informative) Effect of compounding variations on chemical resistance		32
Annex B (informative) References in Table 2		34
Annex C (informative) References in Table 3		35
