

ISO/TR 7620:2005-05 (E)

Rubber materials - Chemical resistance

Contents		Page
Foreword		iv
Introduction		v
1 Scope		1
2 Types of chemical and physical change		1
3 Rubber polymers		2
4 Chemicals		3
5 Effect of service conditions		3
6 Criteria applied for the ranking of chemical resistance		3
7 Chemical resistance of rubber materials		4
8 Methods for the evaluation of chemical resistance		5
9 Chemical resistance		8
Annex A (informative) Effect of compounding variations on chemical resistance		32
Annex B (informative) References in Table 2		34
Annex C (informative) References in Table 3		35
