## Rubber threads - Methods of test

---

<b>Contents</b>		<b>Page</b>
Foreword .....		iv
1	Scope .....	1
2	Normative references .....	1
3	Conditioning of samples or test pieces .....	1
4	Count .....	2
5	Metric yield .....	4
6	Properties of rubber threads .....	5
7	Density .....	5
8	Tensile strength, modulus and elongation at break .....	7
9	Schwartz value (SV) .....	8
10	Elongation under a specified load .....	9
11	Stress retention .....	11
12	Accelerated-ageing test on rubber threads in a relaxed state .....	13
13	Dry-heat resistance .....	14
14	Ribbons: Degree of adhesion between threads .....	16
15	Resistance to copper staining during laundering .....	17
16	Effect of washing .....	20
17	Resistance to atmospheric fume staining .....	22
