## Furniture - Beds and mattresses - Test methods for the determination of functional characteristics and assessment criteria

---

| <b>Contents</b>       |   | <b>Page</b> |
|-----------------------|---|-------------|
| Foreword .....        |   | 3           |
| 1                     | Scope .....   | 4           |
| 2                     | Normative references .....                                    | 4           |
| 3                     | Terms and definitions .....                                   | 4           |
| 4                     | General test conditions .....                                 | 5           |
| 4.1                   | Preliminary preparation .....                                 | 5           |
| 4.2                   | Tolerances .....  | 5           |
| 4.3                   | Sequence of testing .....                                     | 5           |
| 5                     | Test apparatus .....  | 6           |
| 5.1                   | Floor surface .....   | 6           |
| 5.2                   | Stops .....   | 6           |
| 5.3                   | Standard test bed base for mattresses (durability test) ..... | 6           |
| 5.4                   | Side support profile .....                                    | 6           |
| 5.5                   | Standard table/test board (measuring) .....                   | 7           |
| 5.6                   | Loading pad .....   | 7           |
| 5.7                   | Equipment for recording the load/deflection curves .....      | 8           |
| 5.8                   | Equipment for the durability test .....                       | 8           |
| 6                     | Functional characteristics .....                              | 9           |
| 6.1                   | Measurable functional characteristics .....                   | 9           |
| 6.2                   | Visual inspection .....                                       | 9           |
| 7                     | Test methods .....  | 10          |
| 7.1                   | General .....   | 10          |
| 7.2                   | Durability test .....   | 10          |
| 7.3                   | Load/deflection curve .....                                   | 10          |
| 8                     | Evaluation of characteristic parameters .....                 | 11          |
| 8.1                   | Determination of height loss .....                            | 11          |
| 8.2                   | Determination of hardness value .....                         | 11          |
| 8.3                   | Determination of firmness rating .....                        | 12          |
| 9                     | Durability of bed edge .....                                  | 13          |
| 10                    | Test report .....   | 13          |
| Annex A (informative) | Basis of determination of firmness rating .....               | 14          |
