

DIN EN 15534-4:2014-04 (E)

Composites made from cellulose-based materials and thermoplastics (usually called wood-polymer composites (WPC) or natural fibre composites (NFC)) - Part 4: Specifications for decking profiles and tiles

| Contents | | Page |
|--|--|-------------|
| Foreword | | 3 |
| 1 | Scope | 5 |
| 2 | Normative references | 5 |
| 3 | Terms and definitions | 5 |
| 4 | Requirements | 5 |
| 4.1 | General | 5 |
| 4.2 | Material | 6 |
| 4.3 | Appearance | 6 |
| 4.4 | Physical characteristics | 6 |
| 4.5 | Mechanical characteristics | 7 |
| 4.5.1 | Falling mass impact resistance | 7 |
| 4.5.2 | Flexural properties | 8 |
| 4.5.3 | Creep behaviour | 8 |
| 4.5.4 | Durability of products against biological agents | 9 |
| 4.5.5 | Durability of the products against ageing and moisture | 9 |
| 4.5.6 | Thermal properties | 10 |
| 4.5.7 | Additional characteristics | 11 |
| 5 | Marking | 12 |
| Annex A (informative) Minimum frequencies of testing for factory production control purposes | | 13 |
| Bibliography | | 14 |
