DIN EN 17009:2019-06 (E)

Flooring of lignified materials other than wood - Characteristics, assessment and verification of constancy of performa nce and marking

Contents

Page

European foreword 5

Introduction 6

1 Scope 7

2 Normative references 7

3 Terms and definitions 8

4 Symbols and abbreviations 14
4.1 Symbols 14
4.2 Abbreviations 14

5 Flooring products characteristics 15
5.1 Reaction to fire 15
5.2 Dangerous substances 15
5.2.1 Content of dangerous substances 15
5.2.2 Emission of dangerous substances into indoor air 15
5.3 Bending and breaking strength 16
5.3.1 General 16
5.3.2 Test methods and results 16
5.4 Slip resistance 16
5.5 Thermal properties (resistance) 16
5.5.1 General 16
5.5.2 Testing 16
5.5.3 Calculation 17
5.6 Biological durability 18
5.6.1 General 18
5.6.2 Biological durability testing 18
5.7 Other characteristics 18
5.7.1 Raw materials 18
5.7.2 Moisture content 18
5.7.3 Hardness 18
5.7.4 Bonding 19
5.7.5 Dimensional tolerances 19

6 Attestation and verification of constancy of performance 19
6.1 General 19
6.2 Type Testing 19
6.2.1 General 19
6.2.2 Test samples, testing and compliance criteria 20
6.2.3 Test reports 20
6.2.4 Shared other party results 20
6.3 Factory production control (FPC) 21
6.3.1 General 21
6.3.2 Requirements 21
6.3.3 Product specific requirements 24
6.3.4 Initial inspection of factory and of FPC 25
6.3.5 Continuing surveillance, assessment and evaluation of FPC 25
6.3.6 Procedure for modifications 25

6.3.7 One-off products, pre-production products (e.g. prototypes) and products produced in very low quantity ... 25

7 Marking, labelling and packaging ... 26

Annex A (normative) Declaration of formaldehyde emission ... 27

A.1 Requirements ... 27
A.2 Without testing ... 27
A.3 Initial testing ... 27
A.4 Factory production control ... 28

Annex B (normative) Biological durability testing of products made of lignified material other than wood ... 29

B.1 General ... 29
B.2 Sampling of products made of lignified materials other than wood to be tested ... 29
B.3 General principles of testing and classification ... 29
B.3.1 General principles for testing samples of lignified materials other than wood ... 29
B.3.2 General principles for the classification of biological durability ... 29
B.3.3 General principles for the classification of performance ... 30
B.4 Test methods and classification systems ... 30
B.4.1 Biological durability and performance to wood destroying fungi ... 30
B.4.1.1 General ... 30
B.4.1.2 Testing biological durability against basidiomycetes ... 30
B.4.2 Biological durability to larvae of dry wood destroying beetles ... 32
B.4.3 Biological durability to termites ... 32
B.5 Content of the test report ... 33

Annex C (normative) Raw materials ... 35

C.1 General ... 35
C.2 General requirements for all product types ... 35
C.2.1 Finishing ... 35
C.2.2 Appearance ... 35
C.2.2.1 Face of the element ... 35
C.2.2.2 Raw materials ... 36

Annex D (normative) Moisture content ... 37

Annex E (normative) Dimensional tolerances ... 38

E.1 Specific requirements for the various product types ... 38
E.1.1 General ... 38
E.1.2 Requirements for multilayer bamboo flooring elements and composite bamboo floorcoverings ... 39
E.1.2.1 General ... 39
E.1.2.2 Dimensional characteristics and limit deviations ... 39
E.1.2.2.1 General ... 39
E.1.2.2.2 Bow ... 39
E.1.2.3 Technical specification and properties ... 40
E.1.3 Requirements for bamboo veneer flooring elements and composite bamboo veneer floorcoverings ... 40
E.1.4 Requirements for solid pre-assembled bamboo flooring elements ... 40
E.1.4.1 General ... 40
E.1.4.2 Dimensional characteristics and limit deviations ... 40
E.1.4.2.1 General ... 40
E.1.4.2.2 Squareness and other angular deviations ... 41
E.1.4.2.3 Bow ... 41
E.1.4.2.4 Spring ... 41
E.1.4.3 Technical specification and properties ... 41
E.1.5 Requirements for bamboo finger laying elements ... 41

E.1.5.1 General 41
E.1.5.2 Bamboo fingers 42
E.1.5.3 Bamboo finger laying elements 43

Bibliography 44
