## Laminate floor coverings - Determination of abrasion resistance

---

| <b>Contents</b> |   | <b>Page</b> |
|-----------------|---|-------------|
| Foreword .....  |   | iv          |
| <b>1</b>        | <b>Scope .....</b>  | <b>1</b>    |
| <b>2</b>        | <b>Normative references .....</b>                                   | <b>1</b>    |
| <b>3</b>        | <b>Terms and definitions .....</b>                                  | <b>1</b>    |
| <b>4</b>        | <b>Apparatus .....</b>  | <b>2</b>    |
| 4.1             | Testing machine (for method A and B) (see Figure 1) .....           | 2           |
| 4.1.1           | Test specimen holder (for method A and B) .....                     | 2           |
| 4.1.2           | Holding and lifting device (for method A and B) .....               | 2           |
| 4.1.3           | Rubber covered abrasive wheels (for method A) .....                 | 2           |
| 4.1.4           | Abrasive paper strips (for method A) .....                          | 2           |
| 4.1.5           | Calibration plates (for method A) .....                             | 3           |
| 4.1.6           | Suction device (for method A) .....                                 | 3           |
| 4.1.7           | Revolution-counter (for method A and B) .....                       | 3           |
| 4.2             | Grit feeder and accessories (only for method B) .....               | 3           |
| 4.2.1           | General .....   | 3           |
| 4.2.2           | Vacuum cleaning device .....  | 4           |
| 4.2.3           | Abrading material .....   | 6           |
| 4.2.4           | Leather abrading wheels .....                                       | 6           |
| 4.2.5           | Stopwatch .....   | 6           |
| 4.2.6           | Grit collection container .....                                     | 6           |
| 4.2.7           | Calibration plates .....  | 7           |
| 4.2.8           | Transparent template to evaluate the wear of the abraded area ..... | 7           |
| 4.3             | Additional material or equipment (method A and B) .....             | 7           |
| 4.3.1           | Weighing equipment .....  | 7           |
| 4.3.2           | Conditioning chamber .....  | 7           |
| <b>5</b>        | <b>Test specimens .....</b>   | <b>7</b>    |
| <b>6</b>        | <b>Procedure of method A .....</b>                                  | <b>8</b>    |
| 6.1             | General .....   | 8           |
| 6.2             | Preparation of test specimens and abrasive papers .....             | 8           |
| 6.3             | Preparation of abrasive wheels .....                                | 9           |
| 6.4             | Determination of the abrasion rate of abrasive paper .....          | 9           |
| 6.5             | Abrasion of test specimen .....                                     | 9           |
| 6.5.1           | General .....   | 9           |
| 6.5.2           | Abrasion evaluation method A - octants .....                        | 9           |
| 6.6             | Expression of results .....   | 10          |
| 6.7             | Test report .....   | 10          |
| <b>7</b>        | <b>Procedure of method B .....</b>                                  | <b>10</b>   |
| 7.1             | General .....   | 10          |
| 7.2             | Maintenance of the abrading wheels .....                            | 10          |
| 7.3             | Operation of the abrader .....                                      | 11          |
| 7.3.1           | To start the wear test: .....                                       | 11          |
| 7.3.2           | To halt the wear test: .....  | 11          |
| 7.4             | Calibration .....   | 11          |
| 7.4.1           | Rate of grit flow .....   | 11          |
| 7.4.2           | Abrading capacity .....   | 11          |

|   |                                 |    |
|---|---------------------------------|----|
| 7.5   | Abrasion of test specimen ..... | 12 |
| 7.6   | Expression of results .....     | 12 |
| 7.7   | Test report .....               | 13 |
| Annex A (normative) Calibration and maintenance of abrasion equipment ..... |                                 | 14 |
| Annex B (normative) Measurement of shore A hardness .....                   |                                 | 18 |
| Bibliography .....  |                                 | 19 |
