DIN 68930:2025-07 (E)

Kitchen furniture and bathroom furniture - Fitness for purpose - Requirements and testing

Contents

Page

Foreword 4

1 Scope 5

2 Normative references 5

3 Terms and definitions 6

4 General 7
4.1 Preliminary preparation and general 7
4.2 Application of forces and torques 8
4.3 Tolerances 8
4.4 Prevention of movement during testing 8
4.5 Loading 8

5 Requirements and test methods 9
5.1 Furniture surfaces 9
5.1.1 Requirements for work surfaces and other faces 9
5.1.2 Visual assessment 10
5.2 Resistance to moisture and temperature 11
5.2.1 Alternating climate test 11
5.2.2 Water vapour exposure 11
5.3 Shelves and shelf supports 11
5.4 Deflection of kitchen-worktops/bathroom furniture top plates 12
5.5 Movable components 12
5.5.1 Assessment and general requirements 12
5.5.2 Locks and locking mechanisms 12
5.5.3 Extension elements 13
5.5.4 Pivoted doors 17
5.5.5 Flaps 19
5.5.6 Horizontal and vertical sliding door systems/roll front systems 20
5.5.7 Pivoting hardware with moveable storage areas with combined linear and/or rotational movement in corner cabinets or pull-out larders 21
5.6 Corrosion resistance 23
5.7 Gap width 23
5.7.1 General 23
5.7.2 < 10 mm gap width of furniture fronts 23
5.7.3 10 mm gap widths of furniture fronts 24
5.8 Flatness 24

6 Assembly and care instructions 25

7 Test report 25
