Foreword 3

1 Scope 4

2 Normative references 4

3 Terms and definitions 5

4 Requirements 6

5 Marking and packaging 9

6 Test report 10

Annex A (normative) Determination of thickness, length, width, squareness, straightness and flatness 11

Annex B (normative) Determination of openings and height difference between elements 17

Annex C (normative) Determination of dimensional variations after changes in relative humidity 19

Annex D (normative) Determination of surface soundness 21

Annex E (normative) Determination of abrasion resistance and abrasion classification 23

Annex F (normative) Determination of impact resistance and impact classification 28

Annex G (normative) Determination of thickness swelling 30

Annex H (informative) Calibration and maintenance of abrasion equipment 33
