Ventilation and air conditioning - Part 4: VAC systems in buildings and rooms used in the health care sector

Contents		Page
Foreword		3
1 Scope		4
2 Normative references		4
3 Terms, definitions and abbreviations		6
4 Basic principles		9
5 Room classes and ventilation requirements		9
6 Requirements for ventilation and air-conditioning components		17
7 System qualification and acceptance testing		31
8 Periodic tests		38
9 Requirements for documentation		39
Annex A (informative) Project planning guidance		41
Annex B (normative) Preliminary test (flow visualization)		48
Annex C (normative) Determining the degree of protection		50
Annex D (normative) Measuring turbulence intensity		56
Annex E (informative) System test		59
Annex F (normative) Microbiological monitoring		65
Bibliography		67
