ISO 9847:1992-07 (E)

Solar energy; calibration of field pyranometers by comparison to a reference pyranometer

Contents

Page

1 Scope 1

2 Normative references 1

3 Definitions 1

4 Apparatus 2

5 Calibration procedure 3

6 Certificate of calibration 7

7 Precision and accuracy 7

Annexes

A Calibration devices using artificial sources 8

B Interferences and precautions 11

C Computation of daily average solar angle 13

D Procedure to determine the ratio of the directional response 14

E Bibliography 15
