## Solar energy; calibration of field pyranometers by comparison to a reference pyranometer

---

<b>Contents</b>		<b>Page</b>
1	Scope .....	1
2	Normative references .....	1
3	Definitions .....	1
4	Apparatus .....	2
5	Calibration procedure .....	3
6	Certificate of calibration .....	7
7	Precision and accuracy .....	7
<b>Annexes</b>		
A	Calibration devices using artificial sources .....	8
B	Interferences and precautions .....	11
C	Computation of daily average solar angle .....	13
D	Procedure to determine the ratio of the directional response .....	14
E	Bibliography .....	15
