Solar energy; calibration of field pyranometers by comparison to a reference pyranometer

	Contents	Page
1	Scope	1
2	Normative references	1
3	Definitions	1
4	Apparatus	2
5	Calibration procedure	3
6	Certificate of calibration	7
7	Precision and accuracy	7
Annexes		
A	Calibration devices using artificial sources.....	8
B	Interferences and precautions	11
C	Computation of daily average solar angle	13
D	Procedure to determine the ratio of the directional response	14
E	Bibliography	15
