DIN EN 15727:2010-10 (E)

Ventilation for buildings - Ducts and ductwork components, leakage classification and testing

Contents

Page

Foreword 3

Introduction 4

1 Scope 6

2 Normative references 6

3 Terms, definitions and symbols 6
3.1 Terms and definitions 6
3.2 Symbols 8

4 Instrumentation 9
4.1 Calibration 9
4.2 Air flow rate measurement 9
4.3 Pressure measurement 9
4.4 Temperature measurement 9

5 Leakage 9

6 Test rig specifications 10

7 Test procedure 11
7.1 Method for testing a technical ductwork product 11
7.2 Calculation of the total joint length (L) 11
7.3 Calculation of the virtual product surface area (Ac) 11
7.4 Correction of leakage 12
7.5 Calculation of the product tightness factor (fc) 12

8 Test report 12
