DIN EN 253:2013-05 (E)

District heating pipes - Preinsula ted bonded pipe systems for directly buried hot water networks - Pipe assembly of steel service pipe, polyurethane thermal insulation and outer casing of polyethylene (includes Amendment A1:2013)

Contents

Page

page Foreword 4

Introduction 5

1 Scope 6

2 Normative references 6

3 Terms and definitions 7

4 Requirements 9
4.1 General 9
4.2 Steel service pipe 9
4.2.1 Specification 9
4.2.2 Diameter 10
4.2.3 Wall thickness 10
4.2.4 Surface condition 12
4.3 Casing 12
4.3.1 Material properties 12
4.3.2 Casing properties 13
4.4 Polyurethane rigid foam insulation (PUR) 15
4.4.1 Composition 15
4.4.2 Voids and bubbles 15
4.4.3 Compressive strength 15
4.5 Pipe assembly 15
4.5.1 General 15
4.5.2 Pipe ends 15
4.5.3 Diameter and wall thickness of the casing 15
4.5.4 Centre line deviation 16
4.5.5 Expected thermal life and long term temperature resistance 17
4.5.6 Thermal conductivity in unaged condition 17
4.5.7 Thermal conductivity at artificially aged condition 17
4.5.8 Impact resistance 17
4.5.9 Long term creep resistance and modulus 17
4.5.10 Surface conditions at delivery 18
4.5.11 Measuring wires for surveillance systems 18

5 Test methods 18
5.1 General conditions and test specimens 18
5.1.1 General conditions 18
5.1.2 Test specimens 18
5.2 Casing 19
5.2.1 Appearance and surface finish 19
5.2.2 Elongation at break 19
5.2.3 Carbon black dispersion, homogeneity 20
5.2.4 Stress crack resistance test 20
5.3 Polyurethane rigid foam insulation (PUR) 21
5.3.1 Composition 21
5.3.2 Voids and bubbles 21

5.3.3 Compressive strength 21
5.4 Pipe assembly 21
5.4.1 Axial shear strength 21
5.4.2 Tangential shear strength 23
5.4.3 Shear strength of the pipe assembly after ageing 25
5.4.4 Thermal conductivity in unaged condition 26
5.4.5 Thermal conductivity at artificially aged condition 26
5.4.6 Impact resistance 26
5.4.7 Long term creep resistance and modulus at 140 °C 26

6 Marking 30
6.1 General 30
6.2 Steel service pipe 30
6.3 Casing 30
6.4 Pipe assembly 30

Annex A (informative) Relation between actual continuous operating conditions and accelerated ageing test conditions 31

Annex B (informative) Calculation of the minimum expected thermal life with operation at various temperatures with respect to PUR foam performance 33

Annex C (normative) !Calculated Continuous Operating Temperature (CCOT)" 34

Annex D (informative) Guidelines for inspection and testing 37

D.1 General 37
D.2 Manufacturer's type test 37
D.3 Manufacturer's quality control 37
D.4 External inspection 37
D.5 Manufacturer's responsibility 37

Annex E (informative) Radial creep behaviour of the polyurethane foam (PUR) 40

Annex F (normative) Thermal conductivity of pre-insulated pipes - Test procedure 41

F.1 Scope 41
F.2 Requirements (EN ISO 8497:1996, Clause 5) 41
F.2.1 Test specimen (EN ISO 8497:1996, 5.1) 41
F.2.2 Operating temperature (EN ISO 8497:1996, 5.2) 41
F.2.3 Types of apparatus (EN ISO 8497:1996, 5.5) 41
F.3 Apparatus (EN ISO 8497:1996, Clause 7) 41
F.3.1 Guarded end apparatus 41
F.3.2 Calibrated end apparatus 41
F.3.3 Dimensions (EN ISO 8497:1996, 7.2) 42
F.3.4 Heater pipe surface temperature 42
F.4 Test specimens (EN ISO 8497:1996, Clause 8) 42
F.4.1 Conditioning (EN ISO 8497:1996, 8.4) 42
F.4.2 Dimension measurement (EN ISO 8497:1996, 8.5) 42
F.4.3 Surface temperature measurement 42
F.4.4 Location of temperature sensors (EN ISO 8497:1996, 8.6) 42
F.5 Procedure (EN ISO 8497:1996, Clause 9) 42
F.5.1 Test length (EN ISO 8497:1996, 9.1.1) 42
F.5.2 Diameter (EN ISO 8497:1996, 8.5) 42
F.5.3 Thickness of casing 43
F.5.4 Ambient requirements (EN ISO 8497:1996, 9.2) 43
F.5.5 Test pipe temperature (EN ISO 8497:1996, 9.3) 43
F.5.6 Power supply (EN ISO 8497:1996, 7.9) 43
F.5.7 Axial heat loss (EN ISO 8497:1996, 5.7) 43
F.5.8 Test period and stability (EN ISO 8497:1996, 9.5.3) 43
F.6 Calculations (EN ISO 8497:1996, Clause 11) 43
F.6.1 Thermal conductivity (EN ISO 8497:1996, 3.5) 43

F.7 Symbols and units (EN ISO 8497:1996 Clause 4) 44

Annex G (informative) National A-deviations 46

G.1 Swedish national legislative deviations on steel service pipes 46

Annex I (informative) Waste treatment and recycling 49
