

DIN EN ISO 14644-10:2013-06 (E)

Cleanrooms and associated controlled environments - Part 10: Classification of surface cleanliness by chemical concentration (ISO 14644-10 :2013)

Contents		Page
Foreword		
1	Scope	
2	Normative references	
3	Terms and definitions	
4	Classification	
4.1	Principles for establishing classification of clean surfaces in cleanrooms and controlled environments	
4.2	Classification for surface cleanliness by chemical concentration	
4.3	ISO-SCC designation	
4.4	Converter for substances into surface atomic concentration	
5	Measuring and monitoring the cleanliness of surfaces for chemical contamination and demonstration of compliance	
5.1	Criteria for good cleanliness assessment	
5.2	Documentation and reporting	
Annex A (informative) Conversion between different unit expressions of surface concentration for chemical substances		
Annex B (informative) Parameters influencing testing and interpretation of results		18
Annex C (informative) Essential considerations for a good cleanliness assessment		19
Annex D (informative) Methods for testing surface cleanliness by chemical concentration		
Annex E (informative) Test record documentation		
Bibliography
